**OFFICE OF PETITIONS**

In re Application of :  
Redd and Baum : DECISION REFUSING STATUS  
Application No. 10/627,393 : UNDER 37 CFR 1.47(a)  
Filed: 25 July, 2003 :  
Atty Docket No. SF005C :  
:

This is in response to the petition filed under 37 CFR 1.47(a) on 14 January, 2004.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 CFR 1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor.

**FAILURE TO RESPOND WILL RESULT IN ABANDONMENT OF THE APPLICATION.**

Extensions of time may be obtained in accordance with 37 CFR 1.136(a).

The above-identified application was filed on 25 July, 2003, without an executed oath or declaration. Accordingly, on 29 October, 2003, a Notice to File Missing Parts of Nonprovisional Application was mailed, requiring, *inter alia*, an executed oath or declaration and a surcharge for its late filing.

In response, on 17 November, 2003, petitioners filed a declaration naming Jarrett L. Redd and Daniel R. Baum as joint inventors, signed by joint inventor Redd, and the late-filing surcharge. Accordingly, on 29 December, 2003, Initial Patent Examination Division mailed an additional Notice to Filing Missing Parts requiring the signature of joint inventor Baum on the declaration, and requiring a new oath or declaration containing the residence and mailing address of each inventor.

In response, the present petition was filed on 14 January, 2004.

Petitioners state that joint inventor Baum refuses to sign the declaration.

A grantable petition under 37 CFR 1.47(a) requires:

(1) proof that the non-signing inventor cannot be reached or located, notwithstanding diligent effort, or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings);

(2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116;

(3) the petition fee;

(4) a surcharge of \$130 or \$65 (small entity) if the petition and/or declaration is not filed at the time of filing the application, and

(5) a statement of the last known address of the non-signing inventor.

The petition lacks items (1) and (2).

In regards to item (1), petitioners have not provided proof that Baum was ever sent or presented with a copy of the application as filed (specification, including claims, drawings, if any, and the declaration).<sup>1</sup> It is unclear from the petition what documents were in fact sent to joint inventor Baum. Petitioners may show proof that a copy of the application was sent or given to the non-signing inventor for review by providing a copy of the cover letter transmitting the application papers (specification, including claims, drawings, if any, and the declaration) to the non-signing inventor or details given in an affidavit or declaration of facts by a person having first-hand knowledge of the details.

Likewise, before a *bona fide* refusal to sign the declaration can be alleged, petitioners must show that a copy of the application was sent or given to the inventor. If the inventor refuses in writing, petitioners must submit a copy of that written refusal with any renewed petition. If the refusal was made orally to a person, then that person must provide details of the refusal in an affidavit or declaration of fact.

In regards to item (2), the declaration present with the present petition is defective in that it contains lacks the residence and mailing address of non-signing inventor Baum. The oath or declaration must identify the mailing address, and the residence

if an inventor lives at a location which is different from where the inventor customarily receives mail, of each inventor.<sup>2</sup> Petitioners must submit a new oath or declaration in compliance with 37 CFR 1.63 and 1.67, signed by all of the signing inventors on behalf of themselves and the non-signing inventor.
